The bidders must get themselves fully acquainted with the size and location of godowns vis a vis loading/ unloading points/ nature of work/ infrastructure facilities and functioning of all operations at the site in their own interest before submission of tenders and rates quoted by them for loading into/ unloading from trucks/ wagons shall be deemed to have been done after such acquaintance. Once a tender is submitted by a bidder, he shall be deemed to have fully acquainted himself with the size and location of godowns vis a vis loading/ unloading points/ nature of work/ infrastructure facilities and functioning of all operations at the site and shall not be entitled to any compensation arising out of any discrepancy in the size and location of godowns/ group of godowns found later on, or on the ground that the workers employed by him are demanding higher rates of wages if load involved in certain operation(s) is more or the bags to be handled are heavier.

The services required to be performed under the contract have been described in detail in Section-10. Based on the local market trend and other relevant factors, the Corporation has prescribed rates for each of the service described in each Part which is shown in the PRICE BID (Schedule of Rates) for services annexed to the form of Tender. Bidders are required to quote for all the services detailed in Section-10 containing the terms and conditions in the tender form annexed as PRICE BID and to indicate if they offer to work on the basis of the rates shown in the schedule

of rates for services or offer a uniform percentage of reduction in the rates mentioned in the said Schedule of Rates.

3.2. Preservation and quality control management

The contractor in addition to handling and transportation of stock of food grains shall have to undertake the works related to preservation and Quality control Management of stored stocks of foodgrains (Except PEG godowns) inside warehouses as detailed below as Annexure-I under the guidance and supervision of Quality Control trained Inspector attached to the Warehouse or as may be deputed. The contractor will be entitled to claim additional charge for this purpose at the rate fixed by the Food & Supplies Department.

3.2.1. The job of preservation & Quality Control Management includes:

1. Cleaning and drying of vacant godowns with proper pesticides, chemicals to keep it free from pests, rodents etc. before stacking of rice bags inside the godowns.
2. Maintaining uniform and standard stack (30' × 20') with maximum 20 layers of bags in each stack having 150 MT rice in 3000 bags of 50 KGs each built in with proper alleyways (2.5') and gangways (5').

In case, however, the contractor is granted exemption from the deduction of Income Tax at lower rate, he shall be required to produce such certificate issued by the prescribed Income Tax Authority clearly stating therein that No Income Tax or Lower Income Tax, as the case may be, deducted at source from the contractor against the said contract, failing which income tax at full rate, as prescribed under the Act, shall be deducted. Such exemption or lower rate certificate shall have to be obtained by the contractor from the prescribed Income Tax Authorities and furnished to the Corporation at the commencement of each Financial Year.

10.15. Exit Clause:

WBSWC will have the liberty to terminate the contract by giving an advance notice of Ninety (90) days in case there are business reasons for it to do so as determined by its management.

10.16. Force majeure:

Notwithstanding anything in this agreement to the contrary neither the WBSWC nor the contractor shall be liable or deemed to be in default for any failure or any delay in performance hereunder, if caused by "force majeure" which term shall mean but not be limited to fire, explosion, natural causes like flood, earthquake, civil commotion, strikes epidemic and other acts of God, action of enemies, act of any Government or other similar causes beyond the control of the party affected, who shall notify the other party within a reasonable time from the beginning of the operation of said cause and shall

thereafter exert all diligence to overcome such cause of delay and resume performance.

10.17. Subletting not allowed:

The contractor shall not sublet, transfer or assign the contract or any part thereof without the previous written approval of the Corporation. In the event of the contractor contravening this condition, the Corporation shall be entitled to place the contract elsewhere on the contractor's account and at their risk and the contractor shall be liable for any loss or damage, which the Corporation may sustain in consequence or arising out of such replacing of the contract.

10.18. Death of the contractor:

No alteration by death, resignation, addition or otherwise for or to the contractor or the partners constituting the contractor's firm shall vitiate or affect this contract but the contractor's heir or heirs or partners of the firm for the time being shall be absolutely bound by the terms hereof in the same manner as if he/she/they had been the sole or original party.

10.19. Notice etc.:

Save as otherwise provided, all notices issued and action to be taken for and on behalf of the Managing Director, State Warehousing Corporation, shall be issued or taken on his behalf by the official, in charge of the Corporation or officer so nominated by the Competent Authority. The contractor shall furnish to Managing Director, West Bengal State Warehousing Corporation, Kolkata, the name(s), designation(s) and address(s) of his authorized representative and all complaints, notices communication and references shall be deemed to have been duly served to the Contractor if delivered to him or his authorized representative or left at or posted at the address so given.

10.20. Interpretation of the clause:

Doubts, if any, about the interpretation of any of the clauses in these tender, meanings of words, terms, specifications, operations or instructions, or as to the quality of workmanship or performance shall be referred to the Tender Accepting Authority of WBSWC, whose decision in the matter shall be final. Similarly any difficulty in implementing the contract can be resolved by referring the matter to the Accepting Authority, who can amend the WBSWC's condition/clause of contract if required.

10.21. Set off:

Any sum of money due and payable to the contractor (including security deposit returnable to them) under this contract may be appropriated by the Corporation and set-off against any claim of the Corporation for the payment of any sum of money arising out of or under any other contract made by the contractor with the Corporation.

Section 11

DISPUTES

11.1. Arbitration:

All disputes and differences arising out of or in any way touching or concerning this agreement whatsoever (except as to any matter the decision of which is expressly provided for in the contract) shall be referred to the sole arbitration of any person appointed by the Managing Director, WBSWC. There will be no objection to any such appointment that the person appointed is an employee of the Corporation, that he had to deal with the matters to which the contract relates and that in the course of his duties as such employee of the Corporation, he had expressed views on all or any of the matter in dispute or difference. The award of such arbitrator shall be final and binding on the parties to this contract. It is a term of this contract that in the event of such Arbitrator to whom the matter is originally referred being transferred, or vacating his office or being unable to act for any reason, the WBSWC at the time of such transfer, vacation of office or inability to act, shall appoint another person to act as Arbitrator in accordance with the terms of this contract. Such person shall be entitled to proceed with the reference from the stage at which was left by his predecessor. It is also a term of this contract that no person other than a person appointed by the Managing Director, WBSWC as aforesaid should act as Arbitrator. The Arbitrator shall give reasons for his award.

Provided further that any demand for arbitration in respect of any claim(s) of the contractors, under the contract shall be in writing and made within one year of the date of termination or completion [expiry of the period] of the contract and where this provision is not complied with the claim(s) of the contractors shall be deemed to have been waived and absolutely barred and the Corporation shall be discharged and released of liabilities under the contract.

The venue of arbitration shall be such place as may be fixed by the Arbitrator in his sole discretion.

The arbitral proceedings in respect of dispute shall commence on the date on which the Arbitrator call upon the parties to file their claim and defence statement.

The work under the contract shall, if reasonable possible continue during the arbitration proceedings and no payment due or payable to the contractors shall be withheld on account of such proceedings.

The cost of arbitration shall be borne by parties as per the decision of the arbitrator.

The arbitrator shall give separate award in respect of each dispute of difference referred to him.

Subject as aforesaid the **Arbitration & Conciliation Act 1996** shall apply to the Arbitration proceedings under this clause.

11.2. Applicability of Law and exclusive jurisdiction of Court

In case of any dispute between the parties claiming under the e-Tender document or any subsequent agreement, the law of India will be the governing laws of dispute and Court at Kolkata will have exclusive territorial jurisdiction to decide any contentious issues around the clauses under this document subject to the preceding clause 16 (Arbitration).

ANNEXURE-I

QUALITY CONTROL MANAGEMENT

ACTIVITY CHART

Before incoming of stocks:

- a) Godown should be cleaned and sprayed with Malathion 50% EC solution in the ratio of (1:100) at the rate of 3 ltrs. solution per 100 square meter surface area of the godown.
- b) Uniform standard stack pattern (30 ft × 20 ft) should be followed. No stack should be Constructed more than 20 layers high and should not contain more than 150 MT rice.
- c) Stacks should be built up in a scientific manner so that alleyways and gangways are maintained. Alley ways maintained in between stack to stack and stack to wall is 2.5 ft. Gang ways i.e. 5 ft. Wide space is to be left for free access of labour.

During storing period:

- a) During storing period, the godown should be opened daily for proper aeration of the stocks except in rainy & high moist days to dissipate heat given out by respiratory action of the grains and to change the ecology in order to disturb the insect growth & development. The stocks should be brushed properly at least once in each week. The stocks should be classified once in each fortnight to verify the intensity of infestation by pests and chemical treatment should be arranged accordingly.

Classification is explained in terms of 'Clear', 'Few' and 'Heavy' depending upon the number of live insects noticed in 500 gms. of representative sample drawn from the peripheral layer of a stack. Sampling has to be done covering all sides of a stack in a cross manner.

TABLE - 1

Classification	No. of Insect present
Clear	Indicates the presence of no live insects (major or minor) per 500 gm of representative sample drawn.
Few	Presence of live insects (major or minor) up to two in number per 500 gm of representative sample drawn.
Heavy	The live insects major or minor are more than two per 500 gm of representative sample drawn.

- b) The stocks should be sprayed with Malathion 50% EC solution (Dilution 1:100 ratio) once in each fortnight. Three litres of such solution should be sprayed over 100 square meter surface area.

- c) If the intensity of infestation is heavy, the stock must be sprayed with Deltamethrin 2.5% WP solution (120 gms to be dissolved in 3 litre water and be sprayed over 100 square meter surface area) once in three months.
- d) If the stocks are heavily infested with pests including khapra, the same must be fumigated with Aluminium phosphide tablets (9 gms per MT) by covering the stacks with polythene covers once in three months. After polythene cover the stacks are made air tight by the mud plastering/ Sand Snake (double row) to retain maximum of the gas molecules liberate. The fumigated covers should be removed after 5 to 7 days.
- e) After chemical treatment as aforesaid, the bags of rice should be brushed properly. In case of treatment with Deltamethrin 2.5 % WP the stock should be brushed only before delivery.
- f) Alleways, gangways should be cleaned properly and loose grains should be refilled in gunny bags. Empty gunny register must be kept in the godown to write down the number of empty gunny used in refilling of loose grains.
- g) Stack cards in each stack should be properly maintained and displayed in each stack indicating therein the date of arrival of stocks nature of date wise treatment done.
- h) Stack wise categorization must be made once in a fortnight and categorization register should be maintained.

Categorization: It is a method to assess the quality in order to plan for early liquidation of food grains during storage. Rice is categorized as A, B, C & D based on the percentage of damaged and discoloured grains present. The percentages of damaged & discoloured grains limits in rice are decided by analysis (Weight). It is stated that the representative samples (500 gm) to be obtained from each stack of rice and from such samples, representative samples of 20 (twenty) grams as per BIS method of analysis: IS:4333(Part I) – 1967, to be scooped out for analysis of damaged & discoloured grain of rice. The samples will be categorized as A, B, C and D in terms of percentage of damaged and discoloured grains present in the 20(twenty) grams of representative samples as per following table:

TABLE-2

Commodity (Rice)	Category	Percentage of damaged grain	Percentage of discoloured grain	Remarks
Parboiled/ Raw	A	Up to 3 %	Up to 3%	Issuable stock for delivery
Parboiled/ Raw	B	Above 3% up to 4%	Above 3% up to 5%	Issuable stock for delivery
Parboiled/ Raw	C	Above 4% up to 5%	Above 5% up to 7%	Issuable stock for delivery
Parboiled/ Raw	D	Stock shows appreciable quantity of loose bran (more than 5%) or giving unpleasant smell.		Non-issuable for delivery

- j) In case of presence of rodents, rodent control measures to be undertaken.

Job description towards disinfestations treatment of stored stocks**A. Prophylactic treatment: The stored stocks of rice should be treated as follows:-**

Name of pesticides	Dosage	Remarks
1. Malathion 50% EC	Solution to be prepared in the ratio (1:100) and prepared solution be sprayed on bags surface, walls, alleyways of godown @ 3ltr./100 sq.mtr. to control insects and avoid infestation.	To be treated once in every fortnight. Bags of food grains should be brushed and cleaned and alleyways also should be cleaned after exposure of treatment.
2. Deltamethrin 2.5% WP	40 grams of Deltamethrin 2.5 % WP has to be dissolved in 1 ltr. of water and 3 ltrs. of solution to be sprayed on bags surface, walls, alleyways over 100 sq.mtr. surface area.	Once in 90 days. Bags of food grains should be brushed and cleaned and alleyways also should be cleaned after exposure of treatment.

B. Curative control measures (Fumigation):

If huge infestation is observed and not eliminated by Prophylactic Control measures, Curative Control measures i.e. fumigation of the stocks must be undertaken to eliminate living pests so that at the time of delivery of stocks of rice/wheat etc. there remain no living pests.

Name of pesticides	Dosage	Remarks
Aluminium Phosphide	3 tablets i.e. 9 grams of Aluminium Phosphide to be used per MT. of stored stocks after proper covering of stocks of food grains with airtight polythene covers. The exposure period is 5 to 7 days.	After exposure time cover should be removed and food grain bags should be brushed and cleaned.

After Fumigation is carried out, it should be noticed if there are any crawling insects on the top of stacks or on sides, if fumigated under gas proof cover it should be presumed that the fumigation operation has not been successful. The cause should be looked into and avoided for future operation and stocks should be fumigated again and after exposure period, the bags and the stacks should be cleaned and brushed thoroughly to remove ash and dead pest and stocks should be sprayed with Deltamethrin or with Malathion (in case of crawling infestation) to eliminate the chances of any living pests.

C. Rodent control:

Normally, foodgrain storage warehouses/ godowns have been designed and constructed in such a fashion that there are minimum chance of rodent infestation. However, if presence of rodents is noticed, rodent control measures must be undertaken by using rodenticides. Zinc Phosphide, Berium Carbonade, Red

squill and ANTU are some of the compounds which have been/are being used as rat poisons.

D. Classification of stocks of food grains:

Prior to disinfestations measures, stocks of food grains stored in the godown must be classified as follows:-

Classification	No. of living Pests
Clear	Stock completely free from any living pests.
Few	Stock having two living pests per 500 grams of food grains of representative sample.
Heavy	Stock having more than 2 living pests in 500 grams of representative sample.

After classification, following disinfestations treatment of to be undertaken :

- (a) In case of stocks classified as 'clear', spraying with Malathion 50 % EC or Deltamethrin 2.5% WP is recommended.
- (b) In case of 'few' classified stocks, spraying with either Deltamethrin 2.5% WP or cover fumigation with Aluminium Phosphide is recommended.
- (c) In case of 'heavy' classified stocks, spraying with either Deltamethrin 2.5% WP or cover fumigation with Aluminium Phosphide is recommended.
- (d) After disinfestations treatment the stocks of food grains must be re-classified in order to assess whether disinfestations treatment has been properly undertaken or not and stocks of food grains are free from any living pests.
- (e) Classification of stocks of food grains must be done once in each fortnight prior to treatment and after treatment and proper noting should be recorded in a 'Register'.

The principles based on which the Memorandum of Understanding (MOU) shall be executed between/among the Member Entities of a Bidding Consortium, are stated below:

1. The MOU should clearly specify the roles and responsibilities of each of the Member Entities. It is expected that the individual members have role definitions not conflicting with that of the other members of the consortium. The operational responsibility should be assigned to only one of the Member Entities.
2. The MOU should clearly designate one of the Member Entities as the Lead Member.
3. The Lead Member should be authorized to perform all tasks including, but not limited to providing information, responding to enquiries, entering into contractual commitments on behalf of the Bidders, etc. of the Member Entities.
4. The MOU should be duly signed by each of the Member Entities.
5. The MOU should be executed on a stamp paper of appropriate value.
6. The MOU should be specific to the work specified in the tender.
7. The MOU shall provide that each of the member entities shall be a party to the agreement with WBSWC and shall be jointly and severally responsible and liable to fulfill all the obligations to be assumed by the Bidder under the agreement with the WBSWC at all times during the period of the validity of the agreement.
8. The MOU shall provide that no Member Entities shall withdraw from the agreement with WBSWC without the prior written approval of WBSWC, which WBSWC may refuse if in WBSWC's opinion such withdrawal will be prejudicial to the interest of WBSWC.

NOTE No. 1: The rate of transport of foodgrains quoted in preceding schedules for items 2, 6, 7 is subject to the following terms & conditions:

1. The rate for transport of foodgrains etc. is on the basis of net weight of foodgrains.
2. No separate remuneration will be payable for part of gunnies as the remuneration therefore shall be deemed to be included in the rates for transport of net weight of foodgrains.
3. The transport charges are payable for the distance covered by loaded lorries/ any other vehicle and not for distances covered on return journey of from garage to place of loading/ unloading or back to garage which would be deemed to be inclusive. **Payment on net weight basis envisaged in the note above applies to handling operations also.**
4. Transport charges shall be payable for 1 Kilometer when the distance covered by a loaded lorry/ any other vehicle per trip is less than one Kilometer, for distance over one kilometer per trip, the distance covered by a lorry/ any other vehicle shall in all cases be round off to the nearest 0.50 kms. (applicable to item-7).
5. The distance will be reckoned as fixed by the Chief Engineer PWD or any officer nominated by him or by the Managing Director, WBSWC or checked by a team nominated on this behalf rounded off to the nearest 0.50 km (applicable to item-7)
6. No compensation shall be admissible to the contractor in respect of the detention of trucks/ any other vehicle at godowns, railway station/ railway siding or any other loading/ unloading point(s) or any other place(s) unless such detention be of extra ordinary kind and the decision of the authority of the WBSWC on all such claims shall be final both as regards the admissibility and amount, if any, of the compensation.

7. No compensation shall be admissible to the contractor on account of non-availability of work sufficient to engage the number of trucks/carts/ or any other vehicles/ labour specified in any programme issued by the Superintendent/ Godown In-Charges or an officer acting on this behalf.
8. The weight of bags of foodgrains etc. loaded/ unloaded from truck/ carts/ or any other vehicles/ wagons at the Railway siding/ Railway station/ godowns/ other loading and unloading point(s), shall be worked out on the basis of cent percent weighment, if the bags are non-standardized, and on a check weighment of percentage of bags not exceeding 10 per cent, if the bags are standardized, before being loaded/ unloaded. The representative of the contractor shall be present at the time of checking of the weights at the time of loading/ unloading points etc.
9. The rates for item 6 of the schedule of the rates is applicable to the godowns situated at a considerable distance from the Railway siding in the same premises which have been indicated in the invitation to tender (under place of operation) titled General Information. This rate includes the remuneration for loading into and unloading from trucks and will be paid in addition to the rate fixed for service item no. 3 or 4 or 5, when the Superintendent/ Godown In-Charges is satisfied that the trucks are actually engaged for carrying the bags from the railway siding. The decision of the authority of WBSWC regarding the admissibility of this claim shall be final and binding on the contractors.

Note No. 2.

No charges other than those mentioned above shall be payable in respect of the services described in part-I and II of the schedule of the services or any other duties, services and operations which are auxiliary and/ or incidental to the principal services.

Note No. 3.

In case of bags of weight upto 42 Kg and 52 Kg the same rates will be applicable for handling operations as that **of bags of weight of 40 Kg and 50 Kg respectively.**
